ABOUT US

EuroCompany99 began its development in 1999, when the company was founded and its first facility was opened in Bosnia and Herzegovina. In 2009, a new 8,000 m² production facility was opened in Ljubuški, Bosnia and Herzegovina.

The core business of our company is the procurement, processing, packaging, and distribution of high-quality dried fruits, nuts, seeds, legumes, and grains.

In addition to the market in Bosnia and Herzegovina, we also operate in the Croatian market through offices in Zagreb and Rijeka, which, aside from covering Croatia, also serve the member countries of the European Union.

We are also present in Serbia, through our office in Belgrade, which covers not only Serbia but also the Montenegrin market. Other markets are served in cooperation with distributors through our own EuroCompany brand or in direct collaboration with retail chains through their private label brands.

The EuroCompany tradition is built on values such as flexibility, competitiveness, and innovation, which form the foundation for long-term relationships with our business partners.

OUR MESSAGE

Our goal is to raise awareness among consumers that by regularly consuming nuts, dried fruits, seeds, legumes, and grains, they provide their bodies with a dose of healthy energy, while also improving their mood and overall health.

EuroCompany product lines include foods with a rich nutritional profile that supply the body with the energy it needs and, combined with physical activity, support proper functioning.

Physical activity is one of the key elements for improving health, which we emphasize with the slogan **"Activate your energy with the best of nature"**, aiming to highlight the importance of choosing healthy, natural, and high-quality foods.

QUALITY CONTROL

We use carefully selected raw materials sourced from around the world. Our range includes products under our own brand, private-label products, and bulk items. We continuously develop new products and packaging.

Raw materials are stored in 1,800 m² of temperature-controlled space (0–8 °C), while finished products are stored in 750 m² of space at temperatures up to 8 °C.

Quality control covers raw materials, packaging, and finished products in accordance with EU standards. Our in-house laboratory conducts microbiological analyses, sensory evaluations, and aflatoxin testing. Production processes, lines, and storage facilities are regularly monitored to ensure hygiene and safety.

DISTRIBUTION

Through long-standing relationships with our suppliers, we continuously optimize our supply chain and ensure high-quality delivery to our customers.

We have our own distribution companies in Bosnia and Herzegovina, Croatia, and Serbia. Other markets are served through distributors (under the EuroCompany brand) or directly with retail chains (private label).

#1 Private Label Manufacturer

Feel good

EuroCompany

Perfect Day

Within the Perfect Day range, you'll find a delightful selection of tasty dried fruits and nuts that, in addition to their rich flavor, offer an excellent source of nutrients.

The blends of dried, candied, and nutty fruits are ideal for those who choose healthy snacks packed with energy and nutrients.

The Perfect Day assortment also includes edible seeds and grains — healthy and on-trend — as well as legumes that are perfect for preparing fiber- and protein-rich meals.

The Perfect Day line is designed to brighten your mornings at breakfast, fuel your workday as a snack, serve as a key ingredient in a healthy lunch, or simply be enjoyed while watching your favorite movie or match.

DATES DEGLET NOUR GONDOLA 200g	55023	12x200g	18		

Dates are the edible fruits of the date palm. They are rich in fiber, vitamins, and minerals. They are especially notable for their content of potassium, folic acid, selenium, magnesium, and iron. The sugar in dates is naturally bound to soluble plant fibers, which prolong the body's use of energy from sugar, meaning they provide a quick boost of strength without a subsequent rapid drop in blood sugar.

BEAN

Beans come from the legumes family and are especially rich in protein, folic acid, fibers, and important vitamins and minerals. They lower cholesterol levels and regulate blood sugar. Folic acid, which beans abound in, is very important during pregnancy, while also positively affecting mental health. Due to their mild and neutral taste, beans can be well combined with other vegetables and meat. Preparation: before cooking, soak the beans in cold water to soften them. Drain, wash out, and cook by your own recipe, with additional ingredients and spices. Beans are easy to prepare as a stew, and go well with various vegetables, legumes and meat.

PEANUTS

DRY ROASTED AND UNSALTED

The peanut is a legume family vegetable, even if it is considered a nut by most. Due to roasting and salting, many doubt its beneficial properties, but you would be surprised by the positive effects of peanuts on the organism, especially the healthier, unsalted kind
